

Claudio Pérez González

MSc Student in Theoretical Physics

Universidad Arturo Prat · Iquique, Chile | claudperez@estudiantesunap.cl | claudio200167@gmail.com

RESEARCH INTERESTS

My research focuses on the asymptotic structure of gauge theories and gravity. Current interests include flat holography, null structures, asymptotic symmetries (BMS and extensions), and their connections to soft theorems and memory effects — the so-called infrared triangle.

EDUCATION

ongoing	MSc in Theoretical Physics Universidad Arturo Prat, Iquique, Chile <i>Advisor: Dr. Oscar Fuentealba</i>
2020 – 2024	BSc in Physics Universidad Andrés Bello, Santiago, Chile <i>Advisor: Dr. Rodrigo Aros · Thesis: Analysis of Gravity in the Randall-Sundrum Model</i>

RESEARCH

ongoing	Scalar Field Asymptotic Structure and the Dual Two Form MSc research project · Universidad Arturo Prat <i>Asymptotic boundary conditions at null infinity, conserved charges, BMS symmetry and generalizations.</i>
---------	--

TEACHING EXPERIENCE

Aug – Dec 2024	Teaching Assistant — Mathematical Methods for Physics and Astronomy Universidad Andrés Bello · Supervisor: Prof. Nicolás Parra
----------------	--

TALKS & POSTERS

Jul 2026	GravUC Winter School and Workshop 2026 Speaker
Jul 2026	IX Quantum Gravity in the Southern Cone Contributed poster presentation
Nov 2024	XXIV Chilean Physics Symposium — SOCHIFI Contributed poster presentation
Dec 2024	GravUC School 2024: Topics on Quantum Gravity Contributed poster presentation
Oct 2024	General Relativity Lecture Series — OFTE UNAB Invited speaker · Universidad Andrés Bello

SELECTED SCHOOLS & WORKSHOPS

Jul 2026	2nd Chile-Korea Workshop Attendee
Jan 2026	NordGrav 2026 Participant
Jan 2026	Escuela de Física Teórica USS 2026 Participant
Jul 2025	GravUC Winter School 2025 Attendee
Mar 2025	2nd Pacific Summer School: Black Hole Physics, Cosmology and Beyond Attendee
Jan 2025	Escuela de Física Teórica USS 2025 Participant
Dec 2024	GravUC School 2024: Topics on Quantum Gravity Attendee
Mar 2024	CSC/UDEC/UTALCA 2024: 1st Joint School and Workshop on Theoretical Gravity Attendee
Jan 2024	1st Pacific Summer School: Theory and Observations in Einstein's Theory of Gravity Attendee
Nov 2023	Lecture Series by Marc Henneaux: Asymptotic Structure of Gravity and Gauge Theories Attendee

SKILLS

Programming	LaTeX · Python · Wolfram Mathematica
Languages	Spanish (native) · English · German
